Candidate no. 3

D66 gets it done

Great work

Great living

Great education

D66 creates opportunities for everyone. Life is great in Doetinchem, Gaanderen and Wehl, but there are also challenges. We want our inhabitants to participate and our guests to enjoy their stay. We are working on a nice shopping area, great health care, inspirational cultural events and we spend our time to improve climate change. We make it possible. Vote D66.

“Considering changes and possibilities are essential for us. I represent young and old, so they can actively take part in or work for their club, school or neighbourhood. Fair chances for everyone.”

- Jorik Huizinga, leading candidate D66 Doetinchem

A healthy economy with job opportunities

D66 would like it if most people work and participate in the community. This provides the possibility of develop oneself, in being more self-reliance. We want to stimulate entrepreneurship with less rules. D66 would like more internships and graduation places in and surrounding Doetinchem. So, workers can settle in the area.

Independent and affordable living

D66 would like to cater for the space and housing occasions for people in Doetinchem. Gaanderen and Wehl. We would prefer it if older people can live independently for a longer period of time. But we would also like it if younger inhabitants are given the possibility to live affordable. Sustainable living, that is our goal.

The best education in Doetinchem

D66 would like to invest in increasing the quality of their education. With this we need good buildings, the right education for every student and the perfect match between the labour market and schools. Our educational system is the key to success and personal growth.
